URGENT NOTICE TO COMMUNITY BUSINESSES ON WAHTA

As of today's Council meeting regarding COVID-19 and the effects it has on the health and safety of our community, Council is now ordering all businesses to close as of tomorrow, Thursday April 9th by 6 pm. All other First Nations have taken the precautions to close and this is causing extra strain on our community.

This closure will be in effect until April 15th and then the situation will be assessed. Please be advised there will be increased police presence in the community because of the increased traffic that has descended upon us.

We are asking for your immediate cooperation to ensure your own health, the health of the community, and in joining in the effort to stem the pandemic that is upon us. The next two weeks are critical in how this is going to play out.

Chief Philip Franks
