LTC/EOL/PC Community Engagement, Needs Assessment and Program Design Final Report

Summary/Description:

Wahta Mohawks, a First Nation organization, is seeking a highly motivated individual to carry out research, conduct a community Needs Assessment and Final Report identifying the community's current and future needs in the area of assisted living long-term care and end of life/palliative care program (LTC/EOL/PC) on Wahta Territory.

The process is meant to be community driven, culturally appropriate and identify and develop partnerships with potential funders as well as establish linkages with other health and wellness professionals that would participate and support the delivery of the end program.

Deliverables:

Utilizing the Lakehead University Policy and Program Development for Palliative Care framework in First Nations communities:

- Conduct (9) community engagement sessions with members and identified focus groups
- Identify and develop recommendations and policy implications for Wahta Mohawks community-based LTC/EOL/PC community based model of care.
- Identify appropriate structure and FTE positions
- Design a locally designed, controlled and responsive program model for the delivery of LTC/EOL/PC.
- Working under the direction of the Senior Administrator report to Chief and Council as required.
- Provide a final report with recommendations
- Completion date – March 1, 2017

PROPOSAL DEADLINE

July 15, 2016 – 2 p.m.

Interested individuals and/or parties should submit a detailed proposal including a breakdown of costs.

Please submit proposals to, or for further details please contact:
