

## Wahta Solid Waste Planning Study

**Wahta has initiated a study to examine future options for the landfill and new waste diversion opportunities!**

- Learn about our Waste Management Planning Study by attending an open house to meet the consultants and provide input into the process.
- Join us for a presentation from our consultants about the different phases of the study.
- Come learn, discuss, comment on our landfill, recycling and other waste diversion plans.
- We will have a presentation during the General Meeting, and we will have displays setup in the Round Room.

**Saturday, July 20<sup>th</sup>**  
**From 9:30 AM to Noon**  
**During the General**

We would like you to think about the following questions, so you can provide your feedback into the study.

1. What concerns do you have about the landfill?
2. Would you like to see the landfill to remain opened or closed? Why?
3. Under what circumstances would you agree to keeping the landfill open?
4. What do you think is working well with the waste and recycling program?
5. What concerns do you have and changes that you would like to see?
6. What would you like to happen in the future to increase waste diversion? What do you see as the barriers now?
