UPDATE: Regarding the Provincial Lock Down and business on Wahta Territory

Regarding the Council statement today on provincial measures to minimize Covid-19, there may be room for confusion regarding retail outlets that are not convenience stores. To clarify, convenience stores are those that normally sell grocery products.

All other retail outlets should be using a curbside (out the door) or a drive through method.

For greater certainty please refer to the Ontario summary of the regulations. Again, Council will temporarily adopt the provincial regulations for the period of the Emergency Measures Act for the health safety the community.

Here is a link to the summary:
